"Somewhere out there, there is a perfect programme waiting to catapult me into my future dream career – but how can I find it?"

If this is you, then read on!

You may feel **overwhelmed** by the sheer number of academic programmes available at home and abroad and might feel **disoriented**. This confusion may lead to a delay of a semester or even a whole year. **Hesitation** can force you to make a **sub-optimal decision** which means you end up doing the **second best thing**.

Having a career **guidance expert** at your side can save you up to a year of your life and put you on track to a **highly paid profession** which you **love** and **enjoy**. Find out here how our **simple 7 step formula** could work for you

If you have already been accepted by the admissions department then go straight to STEP 3

This is the most important step of all, because it is here that your pathway begins — with a smart MAP routing the most efficient way to reach the **career destination** in your mind's eye from your present situation. **Time is short**, as the period between completion of your school graduation or Bachelor's Degree and the deadline for application to German university is a matter of weeks. In many cases you will even get your certificates after the deadline. In order to save time we can help you to make an application on predicted grades.

To kickstart the process you will need to invest 10 minutes in a personal interview. Before you fix the appointment which can be personal or on Skype/Zoom, you should prepare the following 3 questions in writing as these will form the basis for your individual application strategy:

- 1. Name the subjects you enjoyed the most at school/university and how you performed in the final exams
- 2. Describe the vision of your future career and where you see yourself in 5 years from now
- 3. Define the study environment and programme most likely to get you to your goal

The strategy assessment will map out your academic and professional goals as well as how to realise them. If you are still not sure, we will give you a 25 minute **personalised assessment** to bolster up your ideas with hard facts on your personal skill sets, strengths, career options and suitability for particular professions. After this, we will finalise your personal university placement strategy and define your individual career development timeline.

Once it is clear which application strategy you have chosen, your personal mentor will go through the most important details with you. For this stage you will need to prepare answers to the following questions:

- 1. Which university or universities offer the programmes you require to reach your career goal?
- 2. Which city will you choose and how will that environment help you to realise your goals?
- 3. Do you have all the requirements and documentation ready in order to meet necessary deadlines?

Once these 3 questions have been answered we discuss and finalise the pathway solutions most suitable for your career goals.

Getting an **excellent German proficiency** level is essential to obtaining admission into a preferred university. However, not every language course on the market is capable of offering that. Whether in need of an intensive course, exam preparation or a final language test in order to prove that you meet the entrance requirements, EURASIA Institute Germany is a one-stop-shop for you. After two and half decades of experience, our language training has been continously refined to meet the needs of the different learners' profile of the 21st century — combined with speed, care, accuracy, our goal is to ensure that learners meet their goals.
